Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner discussed with Applicant's representative, Mr. Stan Antolin, the possibility of clarifying the claims by changing the preamble to recite that the claims are drawn to a "population of smoking articles" or "a method of making a population of smoking articles" in order to reflect the recitation of the allowable subject matter in the claim limitations, said subject matter being based on the smoking article being a member of a "population" of smoking articles - which is a plurality of articles. While Examiner had previously indicated, in a prior Office Action, that this limitation would make the smoking article/wrapper claims allowable, she acknowledged that she now believed the limitations would only place the claims in condition for allowance if said claims were also drawn to a "population of smoking articles" (or a method of making same). Mr. Antolin indicated that he would need to discuss the proposed suggestions with the Applicant. Unfortunately, the issues were unable to be resolved before the deadline, so, it was agreed that further discussions would resume upon Applicant's receipt of an Office Action - which would articulate Examiner's position and offer suggestions for placing the Application in condition for allowance. .
